## Ecosystem Mapping

## From Census to Consensus

An Ecosystem-Builder's Guide to Mapping

**TEN**  
*at the top*

**Population of the  
Upstate**

1,518,710  
**Average Household Income**  
\$59,318

**# Residents Working in Small  
Businesses**

Approximately 50%

**Start•Grow  
UPSTATE**

Your Connection to  
Business Resources

# ***Ecosystem Purpose:***

**Transfer  
knowledge  
from those  
who have it  
to those who  
need it.**

$$P + C = E$$

---

PEOPLE + CULTURE =

EVERYTHING!!

The Entrepreneurs  
Each Other  
The Process

# Building Trust

Playbook to Build  
Trust in Networks and  
Ecosystems

Compiled by **Erin Ouzts and Kevin Asinde**  
in collaboration with Ariane Appel and  
Beny Meier

*Supported by*  
*Credit Suisse – Swisscontact Initiative*  
*to Promote Entrepreneurship & Innovation*

# Harmony is:

- The blending of simultaneous sounds of different pitch or quality, making chords and chord progressions having a pleasing effect.
- The quality of forming a pleasing and consistent whole
- An interweaving of different accounts into a single narrative
- Agreement, but not the same

(Oxford Languages dictionary and Merriam-Webster)

# Innovation

**Trust inspires creativity  
and accelerates innovation.**

## **Innovation thrives with**

- Peer learning & networking
- Working together & reinforcing one another
- Fast flow of information & resources

# Economics

**Trust makes economic sense;  
it saves both time and money.**

More trust

High speed

Low cost

Less trust

Low speed

High cost

# Humanity

Who in your ecosystem do you trust?

Why do you trust these people?

## Within an infrastructure of trust people are:

- Happier and more confident to interact with each other
- Excited about having a shared purpose
- Willing to depend on each other
- Willing to contribute what is needed – including talent, dedication, energy, and honesty
- Feeling safe even when they are in a vulnerable position

# Chemistry

**By encouraging actions to increase the brain chemical oxytocin, you can increase trust within your ecosystem.**

Oxytocin released in the brain has been proven to inspire feelings of trust for others.

*Reference: Paul Zak, The Neuroscience of High-Trust Organisations, Consulting Psychology Journal: Practice & Research, Vol. 70, No. 1, pp 45-58.*

**Start slow.  
Gather, talk,  
share and  
compare notes**

**Identify champions  
and like-minded  
ecosystem builders.**

Start with one person, bring in a friend, then another and another over time. Building trust takes effort and time.

# **Be inclusive, work around barriers**

**Make it easy for everyone to participate.**

**Think about**

- **timing**
- **transportation,**
- **external responsibilities**
- **associations**
- **and the ease with which people can join in**

Intentionally create an inviting and welcoming environment.

# Agree on a common language

**The use of a common language facilitates understanding,**

- **eliminates barriers and**
- **makes it easier to address the real issues facing the entrepreneurs we serve.**

Agreeing on definitions is a first step toward common goals and building trust.

## Who is an Entrepreneur?

Anyone who has started, is starting or growing a venture that provides a product or service and plans to produce revenue

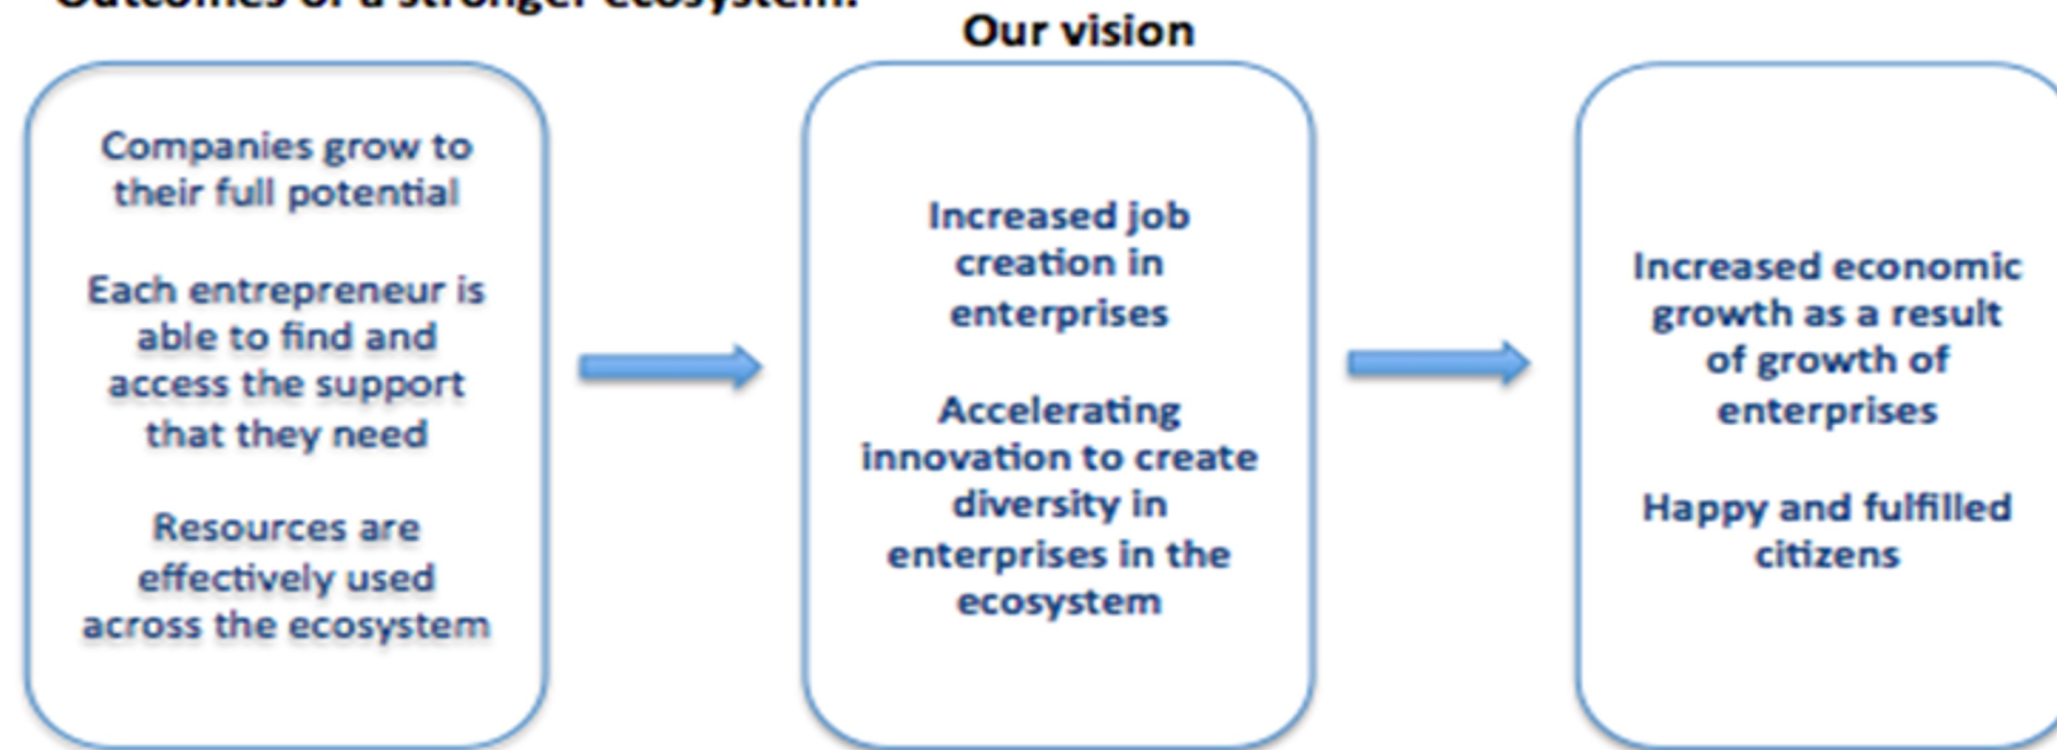

(Inclusive of all people)

**STARTUSUP**  
AMERICA'S NEW BUSINESS PLAN

# Kampala Ecosystem Manifesto

*We are committed to working together to build a strong inclusive Kampala entrepreneurial ecosystem to support entrepreneurs to grow their Enterprises to their full potential.*

## Outcomes of a stronger ecosystem:

## We are committed to working in a way that promotes a set of shared values

# **Work together – but separately**

**Work towards the universal goal of helping entrepreneurs launch and grow their ventures.**

**Work separately on your own organizational goals.**

Organizational goals guide decisions, often at the expense of others. The exercise of aligning ecosystem goals leads to individual organizational goal alignment over time.

# Be vulnerable & Acknowledge Failures

**You and the other champions are on a learning journey, moving outside your comfort zone to create new connections.**

Being vulnerable together starts the trust-building process. The oxytocin released in a person's brain when someone expresses caring (about their work) increases feelings of trust.<sup>1</sup>

<sup>1</sup><https://www.healthline.com/health/how-to-increase-oxytocin#talking>

**Repeat over  
and over**

**The goal is building relationships,  
building trust and working comfortably  
with each other.**

This takes time and repetition.

# Celebrate together

**Working with entrepreneurs can be challenging and the outcomes are sometimes ambiguous.**

It is often several years before you know the impact of your collective ecosystem building efforts.
